V260123.001	 Altendorf F90 Professional Panel Saw with Dust Extraction Brand: Altendorf Type: F90 (format circular saw) Serial number (Machine No.): 82-1-258 Year of manufacture: 1982 Main motor: AEG, power 5.5 kW Pre-cut motor: Bauknecht, power 0.75 kW Saw blade speed: 5000 rpm Maximum saw blade diameter: Ø 350 mm Power supply: 380 V (three-phase) Equipment and accessories: Fitted with a light-alloy roller table / carriage. Manually adjustable width guide and mitre cut guide. Overhead saw blade guard (parabolic guard) connected to the dust extraction system. Includes: Wall-mounted single-bag dust extraction system fitted with a collection bag and fabric filter bag, including the corresponding galvanised and flexible pipework. Condition: Used and in working order	€ 400,00
V260123.002	 Hydraulic window and door glazing presses / Rebate press Brand: Casolin Model: ST S A Serial number (Matricola): 6524 Connection/Power supply: 380 V (three-phase) Useful working range (max. dimensions): 3,100 x 1,800 mm (width x height) <i>Suitable for pressing large window frames, external doors and solid panels.</i> Hydraulic unit motor power: 2 PK (approx. 1.5 kW) Number of clamping pillars (vertical struts): 3, manually adjustable along the width guide. Number of side clamps (horizontal struts): 2 (for perpendicular clamping at the bottom). Overall transport dimensions (approximate): 380 x 100 x 250 cm (L x W x H) Total weight: approx. 600 kg Condition: Used and in working order	€ 200,00
V260123.003	 Holz-Her Express 1402 Professional Edge Banding Machine Brand: Holz-Her Model: Express 1402 (Ex-Press) Year of manufacture: 1992 Serial number: 92.03.537 Supplied by: Machinefabriek Constant Philips (Puurs, Belgium) Glue system: Fitted with the well-known Holz-Her cartridge glue system (hot-melt) for a fast warm-up time and efficient glue application. Control panel: Analogue/digital control panel fitted with two digital Holz-Her temperature controllers, a main switch and selector switches for the power units. Unit sequence: * Automatic material feed / edge feed (roll magazine on the left-hand side). Glue station (cartridge feed). Pressure unit for firmly pressing the edge. Cutting set (front and rear cross-cut saws). Milling unit (top and bottom milling for trimming the edges). Feed system: Chain feed / transport chain with stable rubber pressure blocks and a retractable roller conveyor (support guide) for wide panels. Mobile frame: Mounted on a sturdy base fitted with 4 swivel castors for easy movement within the workshop. Power supply: 380 V (three-phase) Includes: Remnant batch of edge strips / edge banding in a compartmentalised cabinet (see illustration) Condition: Used and in working order	€ 300,00
V260123.004	 J. & G. Hamal Welding Transformer with Accessories Brand: S.A. Maison J. & G. Hamal (Liège, Belgium) Type: ARTI 200 Serial number (No): 41802 Multi-voltage input: Switchable/suitable for use with various mains voltages: 220 V (current: 40 A) 380 V (current: 23 A) 440 V (current: 20 A) Frequency: 50 Hz Equipment and accessories supplied: Cable set: Thick, flexible welding cables fitted with a robust electrode holder and an earth clamp. Welding helmet: 1 classic hand-held welding helmet with a glass viewing window. Tools: Includes a chipping hammer and a heavy-duty forging bar/scrap tongs. Welding electrodes: Various opened/remaining packs of welding electrodes Condition: Used and in working order	€ 15,00

V260123.016	 Complete JKF Industri filter and dust extraction system (Year of manufacture: 2000) – Including 2 fans and pipework 1. Main filter unit & housing Type: Modular, galvanised sheet steel filter cabinet fitted with a funnel-shaped base (hopper) for collecting the heavier particles. 2. Centrifugal fan (main extraction) Make: JKF Industri (Denmark) Type: JK - 40K R Serial number / Mfg. No.: 324200 Year of manufacture: 2000 Weight (fan): 150 kg (excluding motor) Specifications on type plate: * Max. speed: 3200 r/m 3. Secondary Fan / Conveying System At the rear/bottom there is a second, directly driven blue centrifugal fan coupled to an electric motor. 4. Ductwork & Fittings Galvanised ductwork: Various bends, reducers and adaptors connecting the interior (workshop) to the filter unit outside. Condition: Used and operational (filled) To be dismantled by the buyer: This lot must be dismantled and disconnected from the façade/building by the buyer themselves, at their own risk and in a professional manner.	€ 350,00
V260123.017	 Green 20-foot Open-Top Storage Container Green 20ft Open-Top Storage Container Length: 605 cm Width: 244 cm Height: 259 cm Year of manufacture: 07 / 1993 Maximum Gross Weight: 24,000 kg (52,910 lbs) Permissible stacking weight: 192,000 kg (423,280 lbs) Access: Fitted with double rear doors with robust, smooth-operating locking bars (gripping arms and locking cams are complete). Condition: Used Please note regarding collection: The container is filled with wood shavings; the buyer must arrange suitable transport (crane lorry/hook-lift or flatbed lorry) to load and transport the container. No loading equipment is available on site.	€ 350,00
V260123.018	 Industrial Indoor Filter Unit with Control Box Brand: Aagaard Maskinfabrik (Hadsund, Denmark) Type of unit: Modular galvanised steel filter cabinet (indoor installation). Dimensions: 220 x 110 x 280 cm (LxWxH) Internal filters: Fitted with a large set of fabric filter sleeves/filter bags (in clean, dry condition, approx. 270 mm in diameter per sleeve). Control cabinet: Welmoed Electrics sheet steel control cabinet fitted with a digital display, various status indicator lights and an emergency stop button. Condition: Used and in working order Location: This unit is installed in the attic (1st floor) of the building. Dismantling & Transport: The buyer must dismantle the installation independently and professionally and transport it to the ground floor via the existing openings/stairs.	€ 500,00
V260123.019	 Batch of galvanised extraction ductwork, fittings and mounting brackets Remaining stock of industrially galvanised pipework for dust and chip extraction, comprising: Straight pipe sections: Various lengths and diameters (ranging from approx. 100 mm to approx. 400 mm). Fittings: A wide range of T-pieces, Y-branches, reducers, adaptors, bends (90 and 45 degrees) and manually operated shut-off valves/slides. Mounting materials: 1 blue plastic crate filled with a large batch of steel threaded studs, mounting clamps and mounting brackets. Condition: Used and new (see image) Location: Attic (1st floor) of the building.	€ 25,00
V260123.020	 Batch of unused metal drawer runners / roller runners – Length 50 cm Condition: Unused	€ 1,00
V260123.021	 Batch of unused Quick-Step flooring / insulation Approx. 15 Recticel Eurowall insulation boards: Thickness: 120 mm Dimensions per panel: 1200 x 600 mm (Length x Width) 1 roll of Quick-Step Unisound subfloor: Type: Unisound Condition: New	€ 5,00
